

PLASTIC INJECTION MOULDING

MOULD MAKING

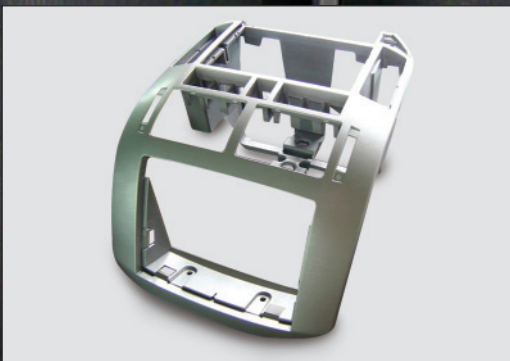

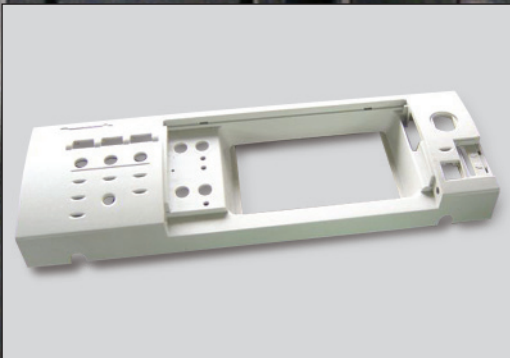

- SHORT RUN TOOLING TO HARDENED PRODUCT BATCH TOOLS
- CNC MILLING & TURNING
- WIRE EDM
- POLISHING

INJECTION MOULDING

- WIDE RANGE OF PLASTICS
- CUSTOM COLOURS
- SHORT TO LONG PRODUCTION RUNS
- IN HOUSE QUALITY CONTROL

MATERIALS

- NYLON
- POLYCARBONATE
- POLYPROPYLENE

A similar injection process to die casting to produce plastic parts - employing either thermosetting or thermoplastic techniques - through the injection of molten plastic under pressure into a mould. Plastics commonly shaped by injection moulding include pvc, pe, nylon, abs and others.
